

CONNECTICUT HEALTHCARE INNOVATION PLAN

Connecticut SIM: Creating a Culture of Value

Medical Assistance Program
Oversight Council

Women's Health Subcommittee
December 7, 2015

Agenda

1. What is the State Innovation Model Initiative?

2. What are the components of CT's SIM?

3. What problems are we trying to address?

4. What care delivery reforms are we promoting?

5. Value-based Payment Reform

6. Quality Measure Alignment

What is a State Innovation Model Grant?

SIM grants are awarded by the federal government through the ***Center for Medicaid and Medicare Services (CMS) Innovation center***. Grants are awarded to states that have demonstrated a commitment to developing and implementing multi-payer health care payment and service delivery models that will:

- 1 Improve health system performance
- 2 Increase quality of care
- 3 Decrease Costs

Connecticut awarded a \$45 million test grant in December 2014 which will be implemented over the next five years.

Vision

Establish a whole-person-centered healthcare system that:

- improves population health;
- eliminates health inequities;
- ensures superior access, quality, and care experience;
- empowers individuals to actively participate in their healthcare; and
- improves affordability by reducing healthcare costs

Our Journey from Current to Future: Components

CT SIM Component Areas of Activity

**Transform
Healthcare
Delivery System
\$13m**

Transform the healthcare delivery system to make it more coordinated, integrate clinical and community services, and distribute services locally in an accessible way.

**Build Population
Health Capabilities
\$6m**

Build population health capabilities that reorient the healthcare toward a focus on the wellness of the whole person and of the community

**Reform Payment &
Insurance Design
\$9m**

Reform payment & insurance design to incent value over volume, engage consumers, and drive investment in community wellness.

Engage Connecticut's consumers throughout \$376k

Invest in enabling health IT infrastructure \$10.7m

Evaluate the results, learn, and adjust \$2.7m

Healthcare today – 1.0

Connecticut's Current Health System: "As Is"

***Fee For Service
Healthcare*** **1.0**

- **Limited accountability**
- **Poorly coordinated**
- **Pays for quantity without regard to quality**
- **Uneven quality and health inequities**
- **Limited data infrastructure**
- **Unsustainable growth in costs**

Healthcare Spending has Outpaced Economic Growth

Source: CMS, National Health Expenditure Data

Escalating costs mean...

....**patients** will experience

 Insurance premiums resulting in less take-home pay

 Deductibles and co-pays for needed medical care

 Access to social services and Medicaid

....**communities** will experience

 Money for programs that support housing, education, the environment, and community development

Escalating costs mean...

...the **business community**
will experience

US = Lowest Ranking for Safety, Coordination, Efficiency, Health

Exhibit ES-1. Overall Ranking

Country Rankings	
	1.00-2.33
	2.34-4.66
	4.67-7.00

	AUS	CAN	GER	NETH	NZ	UK	US
OVERALL RANKING (2010)	3	6	4	1	5	2	7
Quality Care	4	7	5	2	1	3	6
Effective Care	2	7	6	3	5	1	4
Safe Care	6	5	3	1	4	2	7

**How about
Connecticut?**

Connecticut Healthcare Costs

Connecticut - healthcare spending = More than \$30 billion, **fourth highest of all states** for healthcare spending per capita

CMS (2011) Health Spending by State of Residence, 1991-2009.

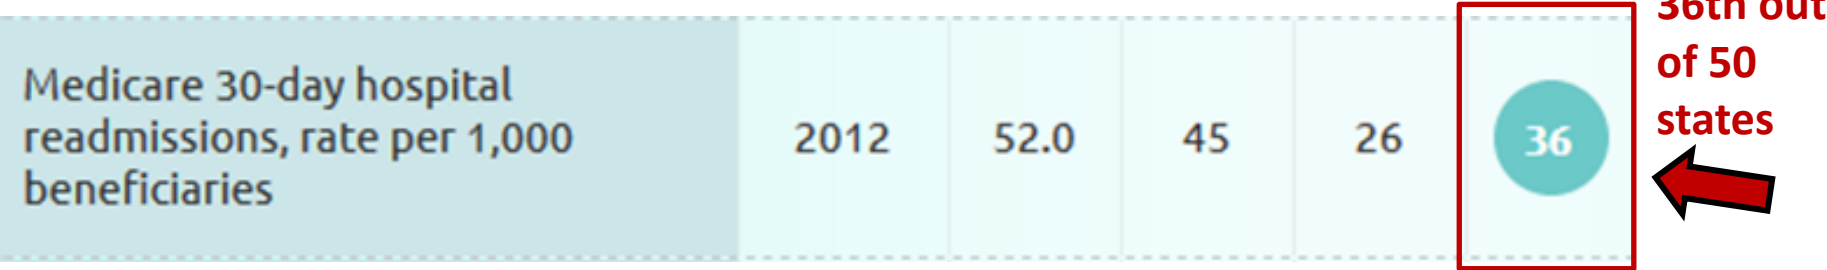

http://www.cms.gov/mmrr/Downloads/MMRR2011_001_04_A03-.pdf

Connecticut: Uneven Quality of Care

Rising rate of Emergency Department utilization

High Hospital Readmissions

Health disparities persist in Connecticut

Diabetes Death Rates - Race/Ethnicity

Figure 7. Age-adjusted Death Rates for Diabetes, Connecticut Residents, by Race or Ethnicity, 2000–2004

Source: DPH 2008b. 2008v.

Health disparities persist in Connecticut

Health disparities devastate individuals, families and communities, and are *costly*:

➤ **The cost of the disparity for the Black population in Connecticut is between \$550 million - \$650 million a year**

Source: LaVeist, Gaskin & Richard (2009). The Economic Burden of Health Inequalities in the US.
The Joint Center for Political & Economic Studies. As reported by [DPH](#)

Stages of Transformation

Stages of Transformation

Connecticut's Current Health System: "As Is"

Our Vision for the Future: "To Be"

Health Enhancement Communities 3.0

Fee for Service 1.0

Limited accountability
Pays for quantity without regard to quality
Lack of transparency
Unnecessary or avoidable care
Limited data infrastructure
Health inequities
Unsustainable growth in costs

Accountable Care 2.0

Accountable for patient population
Rewards

- better healthcare outcomes
- preventive care processes
- lower cost of healthcare

Competition on healthcare outcomes, experience & cost
Coordination of care across the medical neighborhood
Community integration to address social & environmental factors that affect outcomes

Accountable for all community members
Rewards

- prevention outcomes
- lower cost of healthcare & the cost of poor health

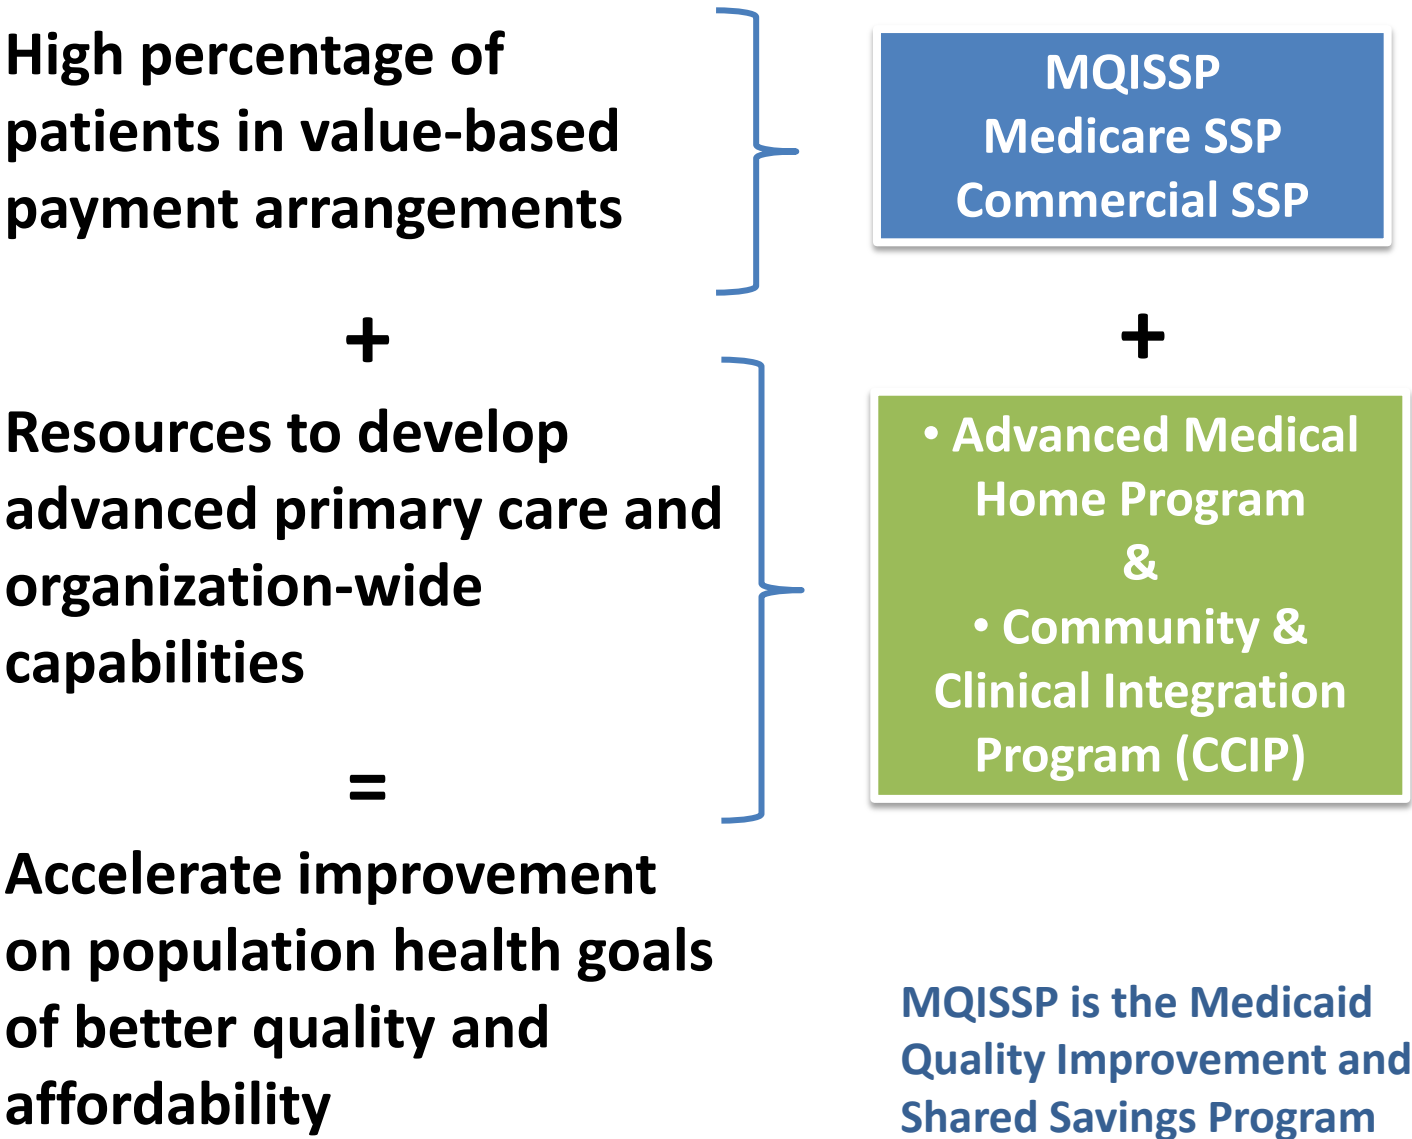

Cooperation to reduce risk and improve health
Shared governance including ACOs, employers, non-profits, schools, health departments and municipalities
Community initiatives to address social-demographic factors that affect health

Accountable Care 2.0

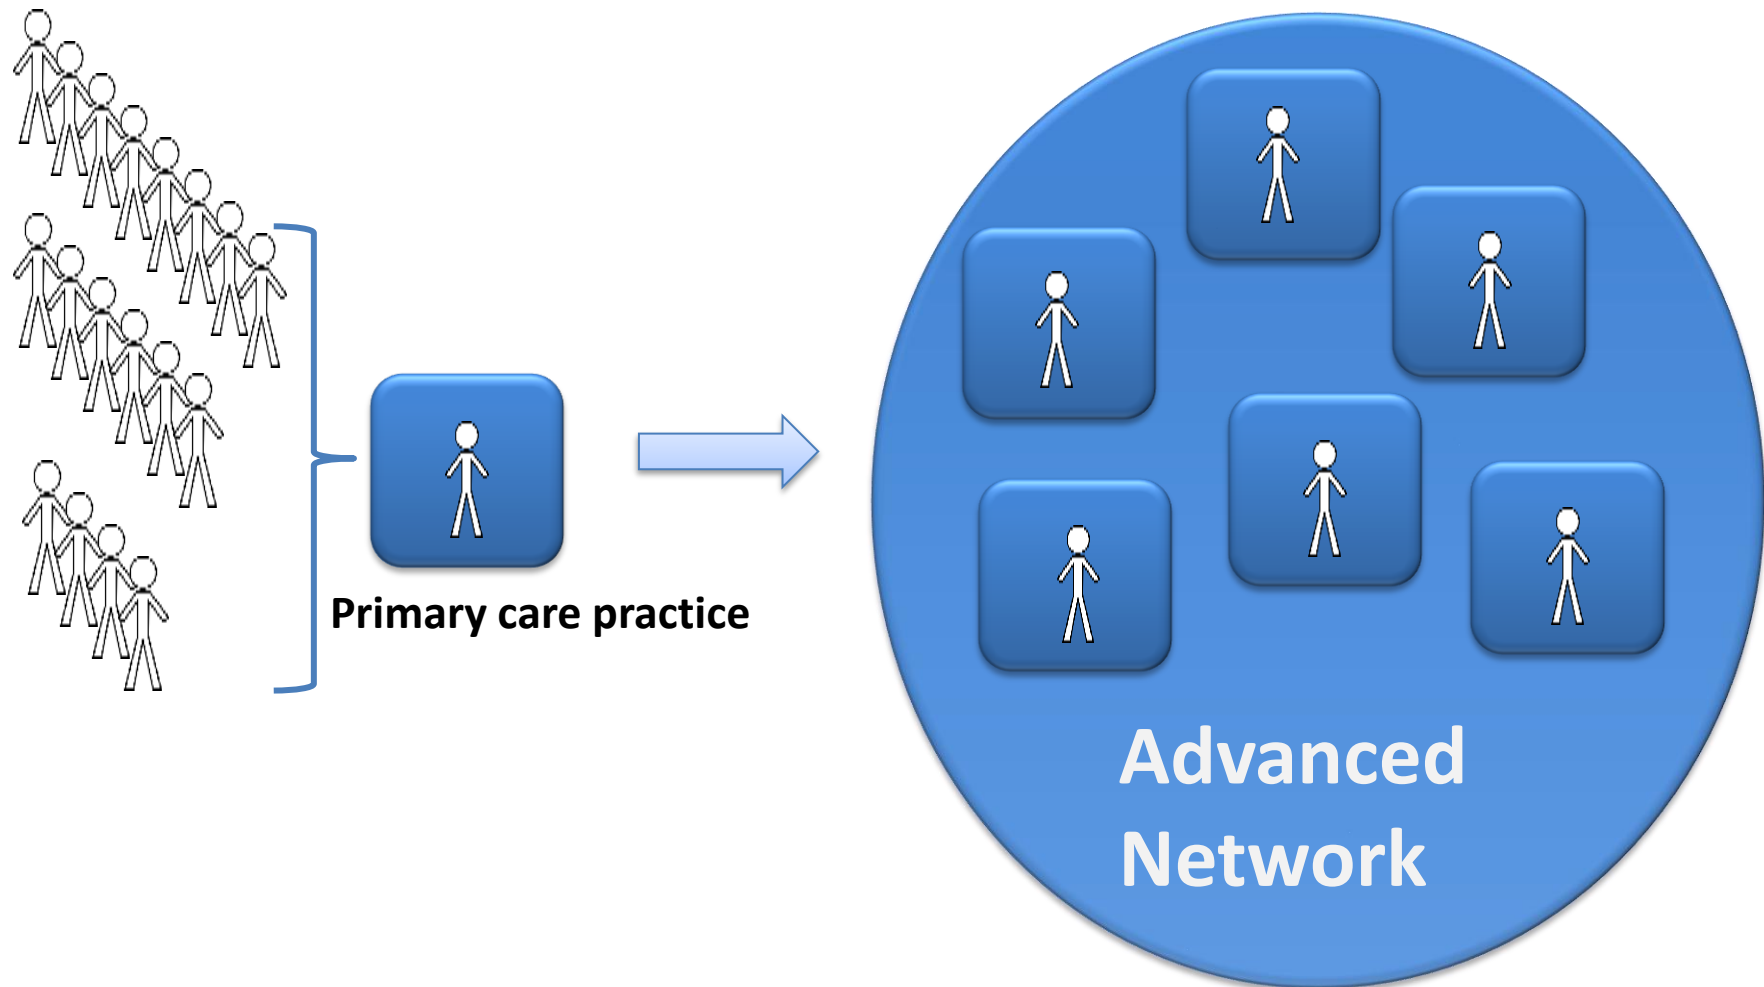

Targeted Initiatives

Statewide Initiatives

Model Test Hypothesis for SIM Targeted Initiatives

Primary care partnerships for accountability

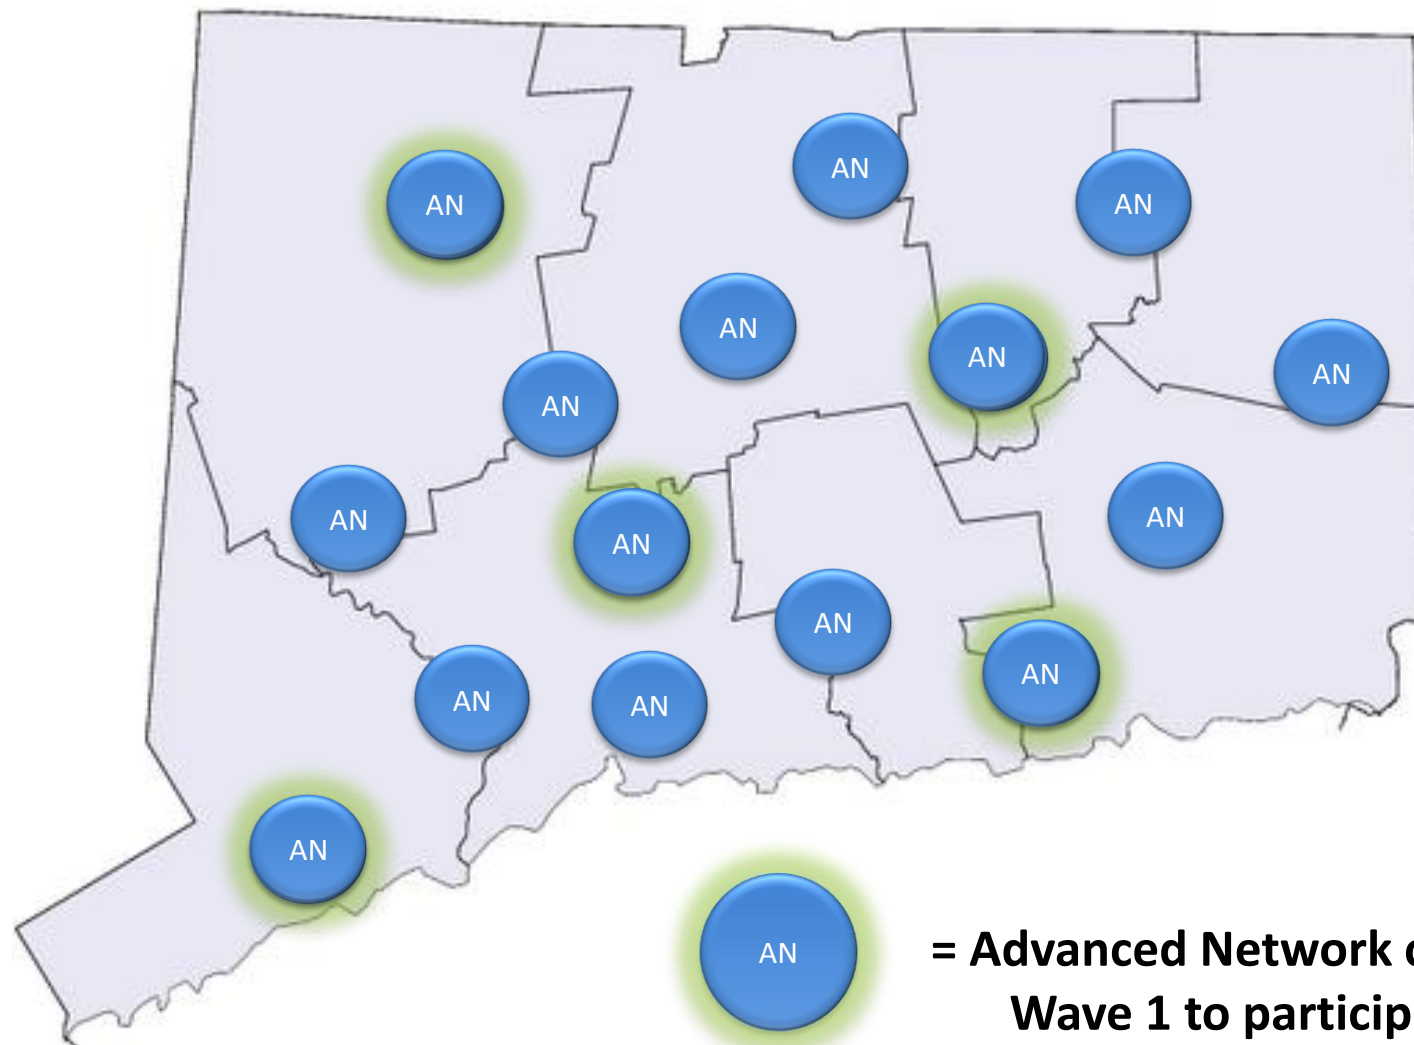

Advanced Network = independent practice associations, large medical groups, clinically integrated networks, and integrated delivery system organizations that have entered into shared savings plan (SSP) arrangements with at least one payer

Accountability for quality and total cost

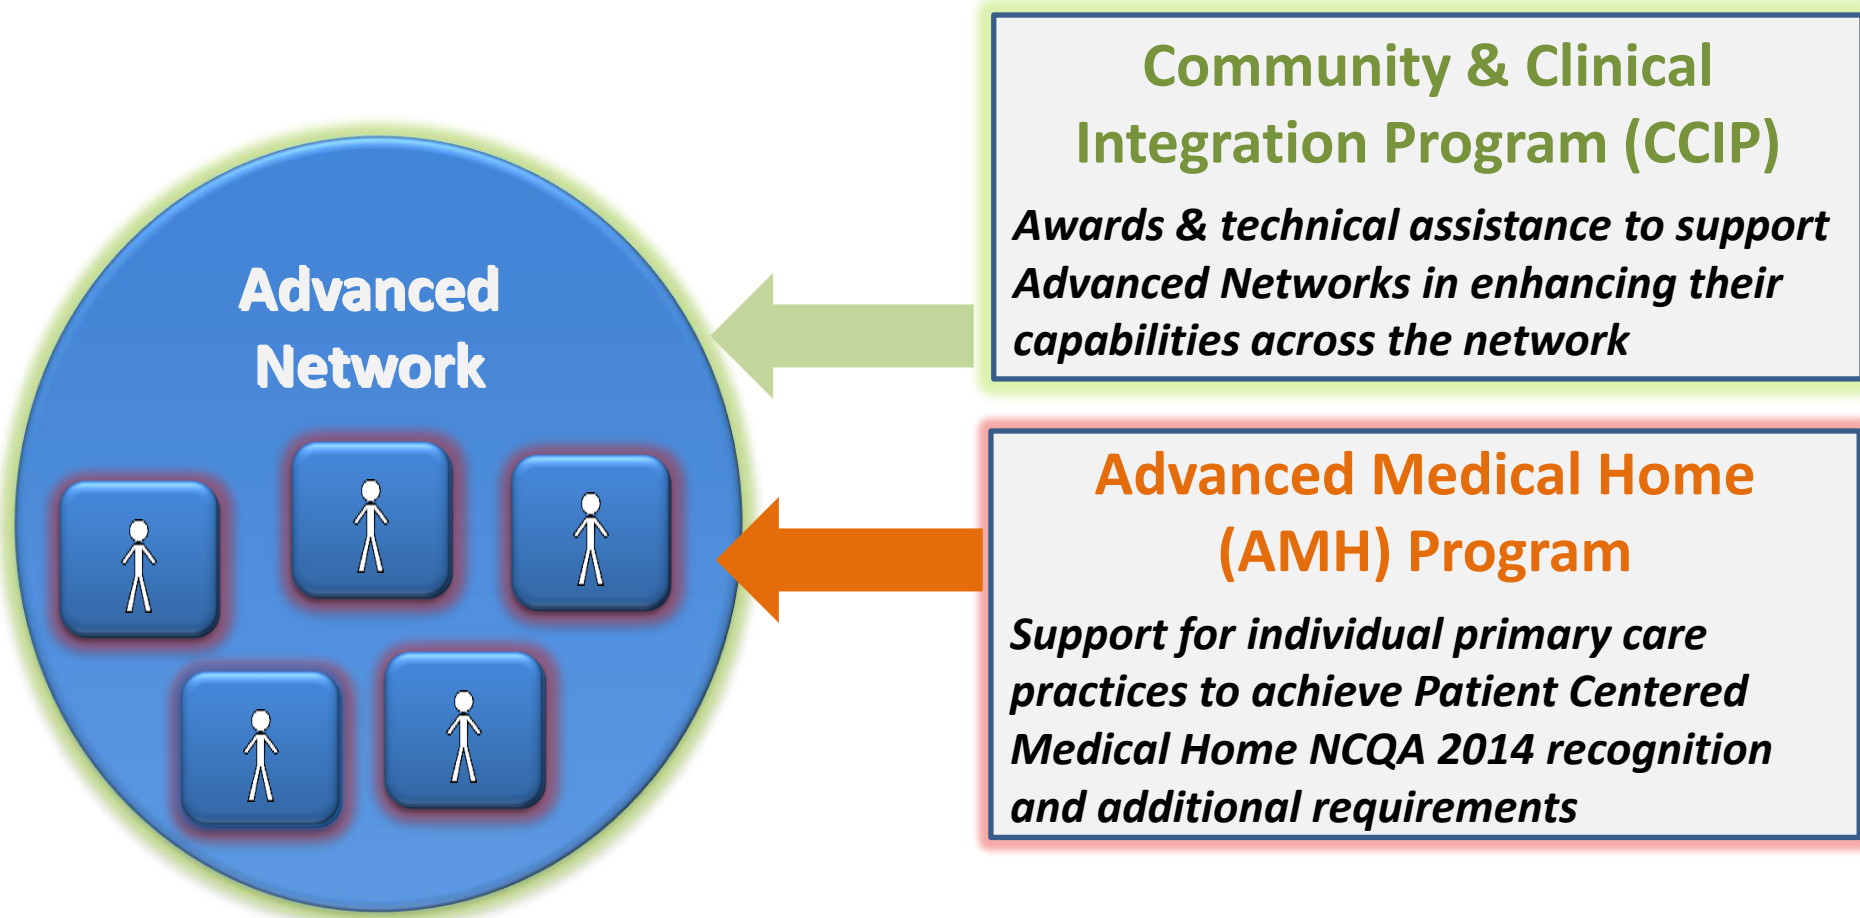

Connecticut has many Advanced Networks

**= Advanced Network chosen in
Wave 1 to participate in
Medicaid Quality Improvement &
Shared Savings Program (MQISSP)**

Resources aligned to support transformation

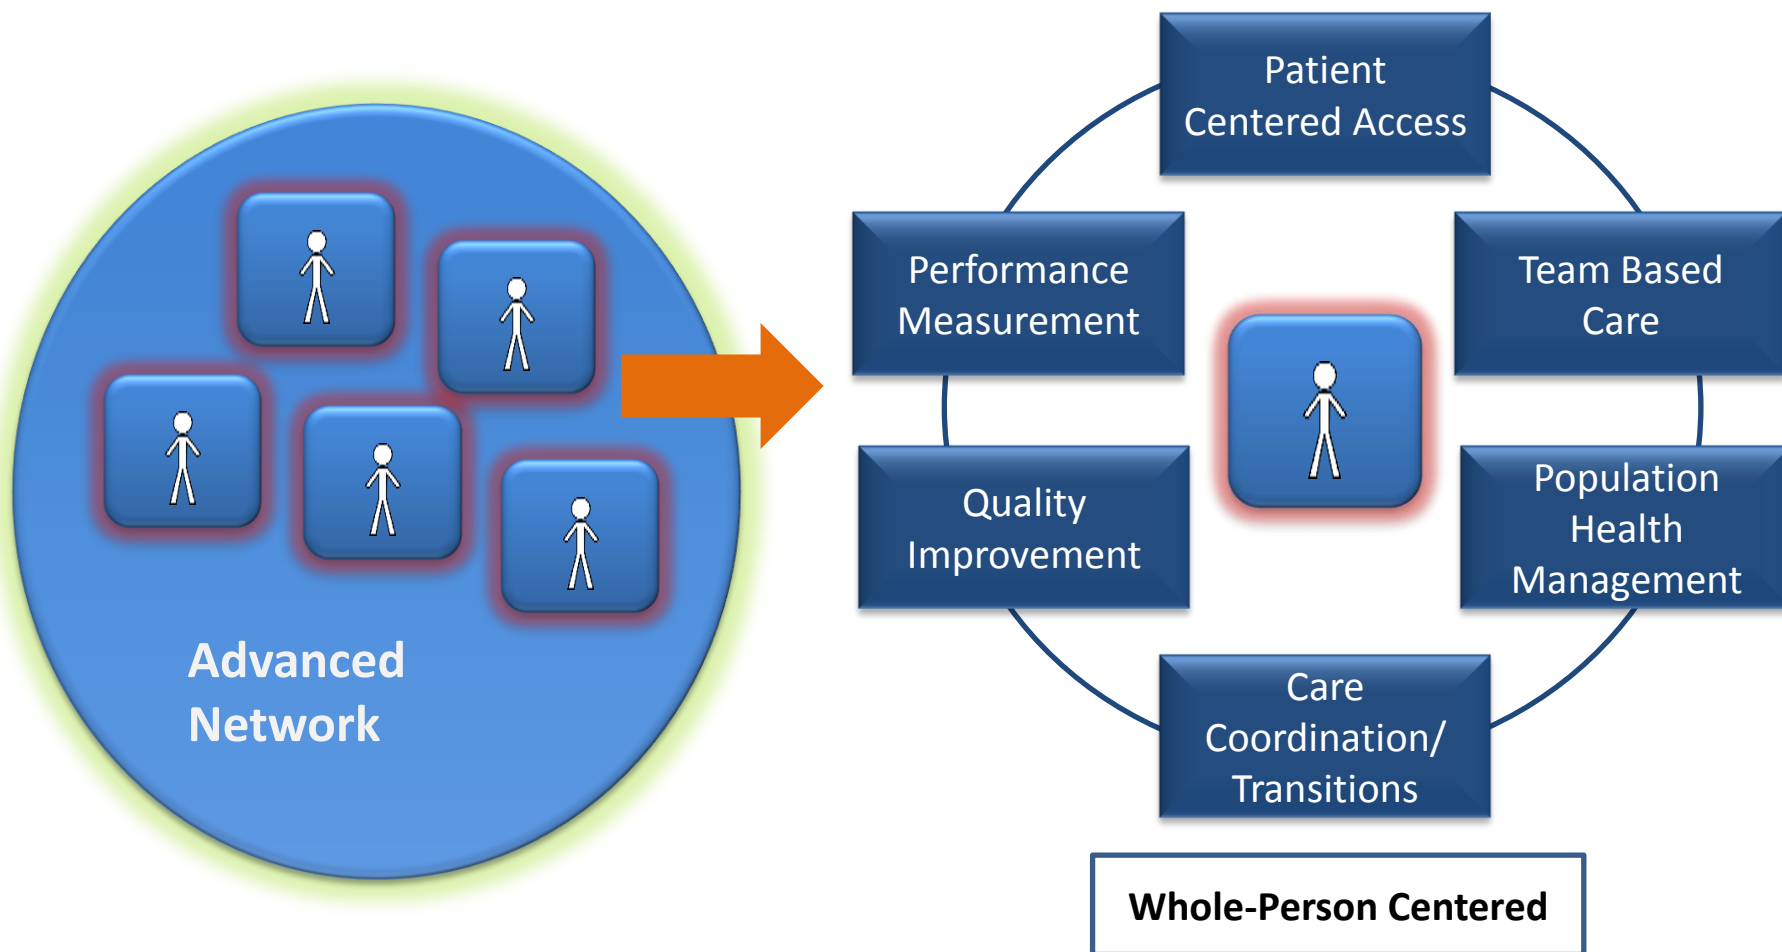

Improving care for all populations
Using population health strategies

Improving capabilities of practices in Advanced Networks

Advanced Medical Home Program

Webinars, peer learning & on-site support for individual primary care practices to achieve Patient Centered Medical Home NCQA 2014 and more

Improving capabilities of Advanced Networks

Community & Clinical Integration Program

Awards & technical assistance to support Advanced Networks in enhancing their capabilities in the following areas:

Supporting Individuals with Complex Needs
Comprehensive care team, Community Health Worker, Community linkages

Reducing Health Equity Gaps
Analyze gaps & implement custom intervention  CHW & culturally tuned materials

Integrating Behavioral Health
Network wide screening, assessment, treatment/referral, coordination, & follow-up

Community Health Collaboratives

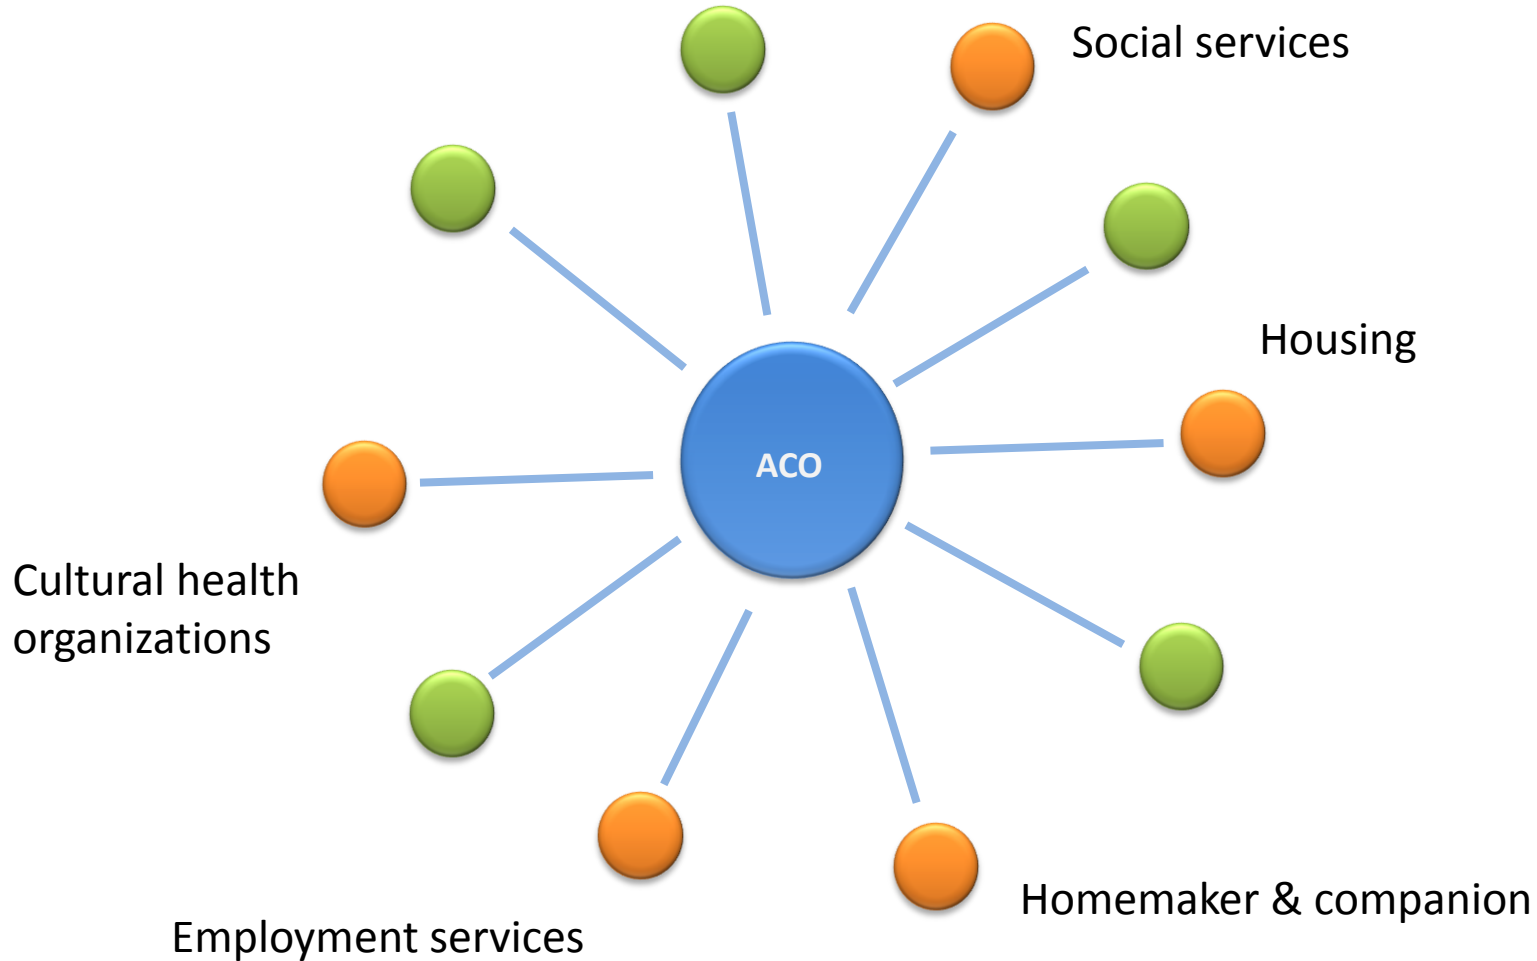

Comprehensive Medication Management
E-Consults
Oral health

New capabilities will emphasize....

**...clinical integration and communication
across the medical neighborhood**

New capabilities will also support...

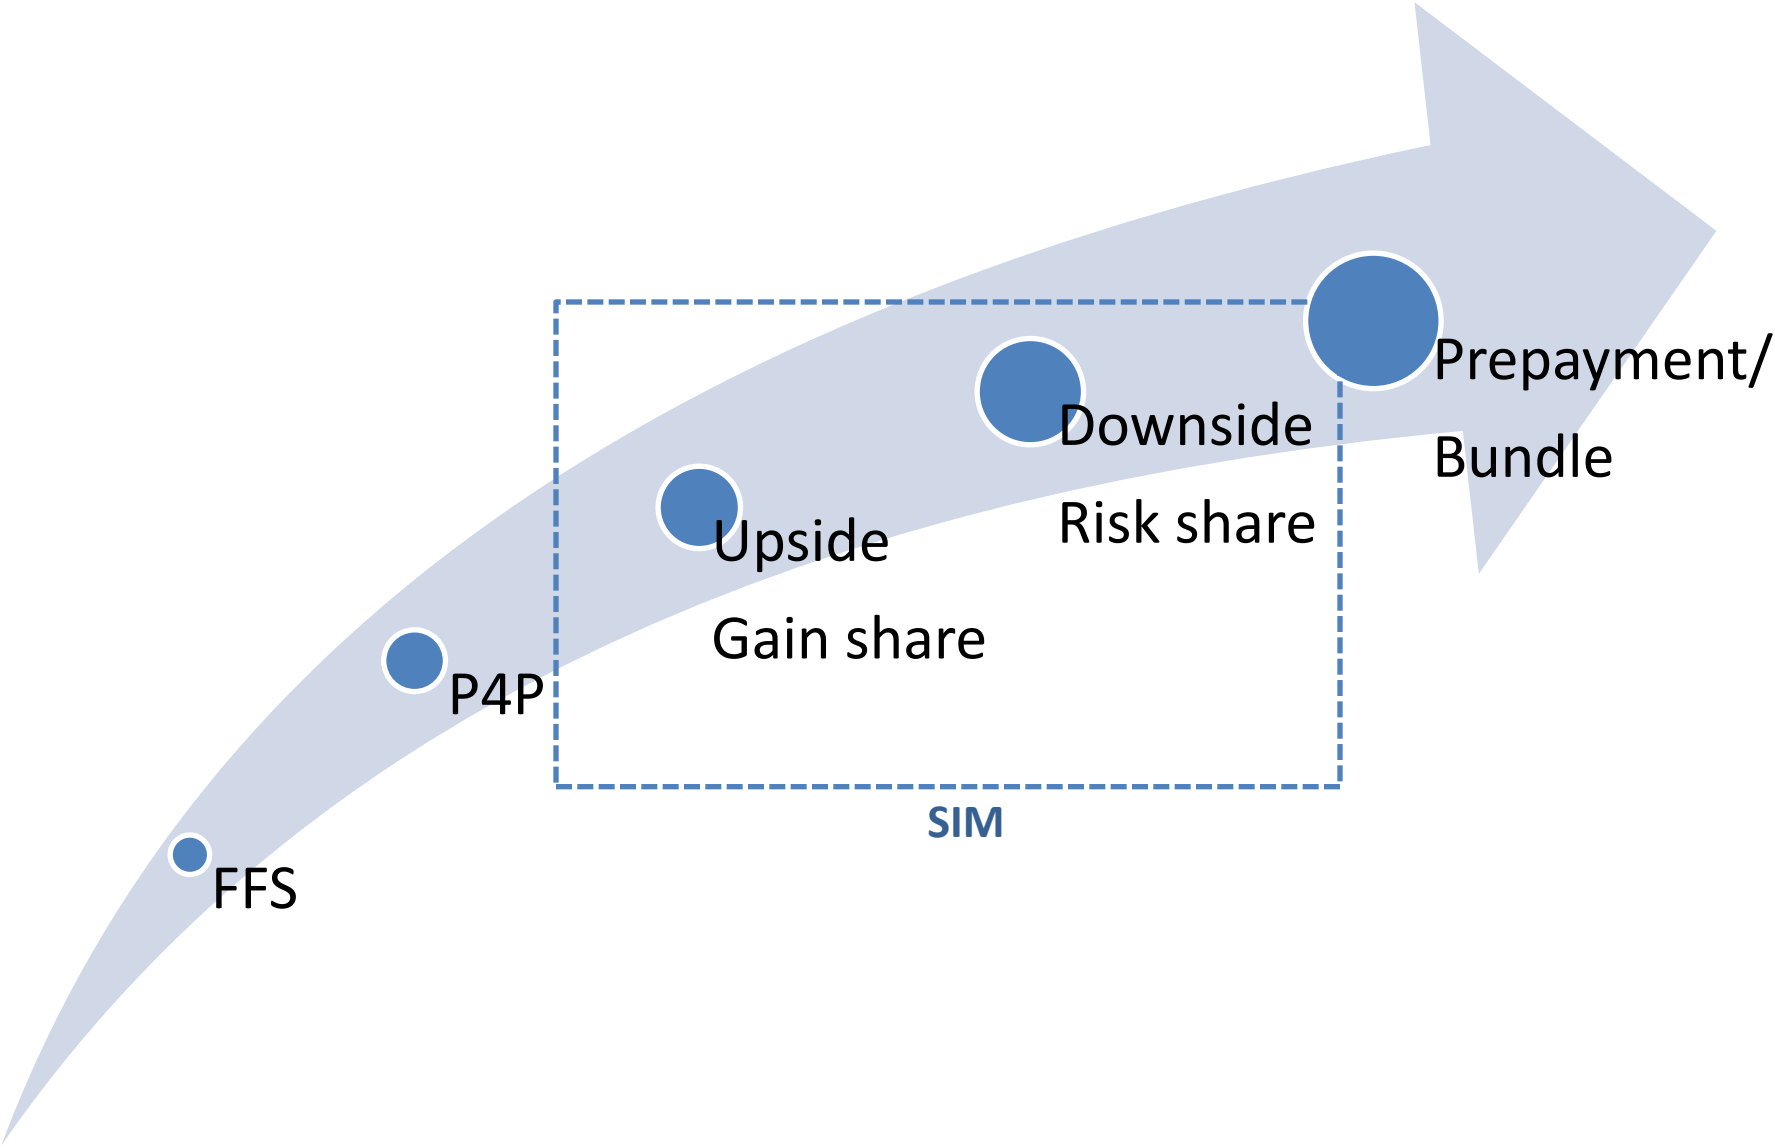

**...coordination and integration with
key community partners**

Value Based Payment

$$\text{Value} = \frac{\text{Quality \& Care Experience}}{\text{Total Cost of Care}}$$

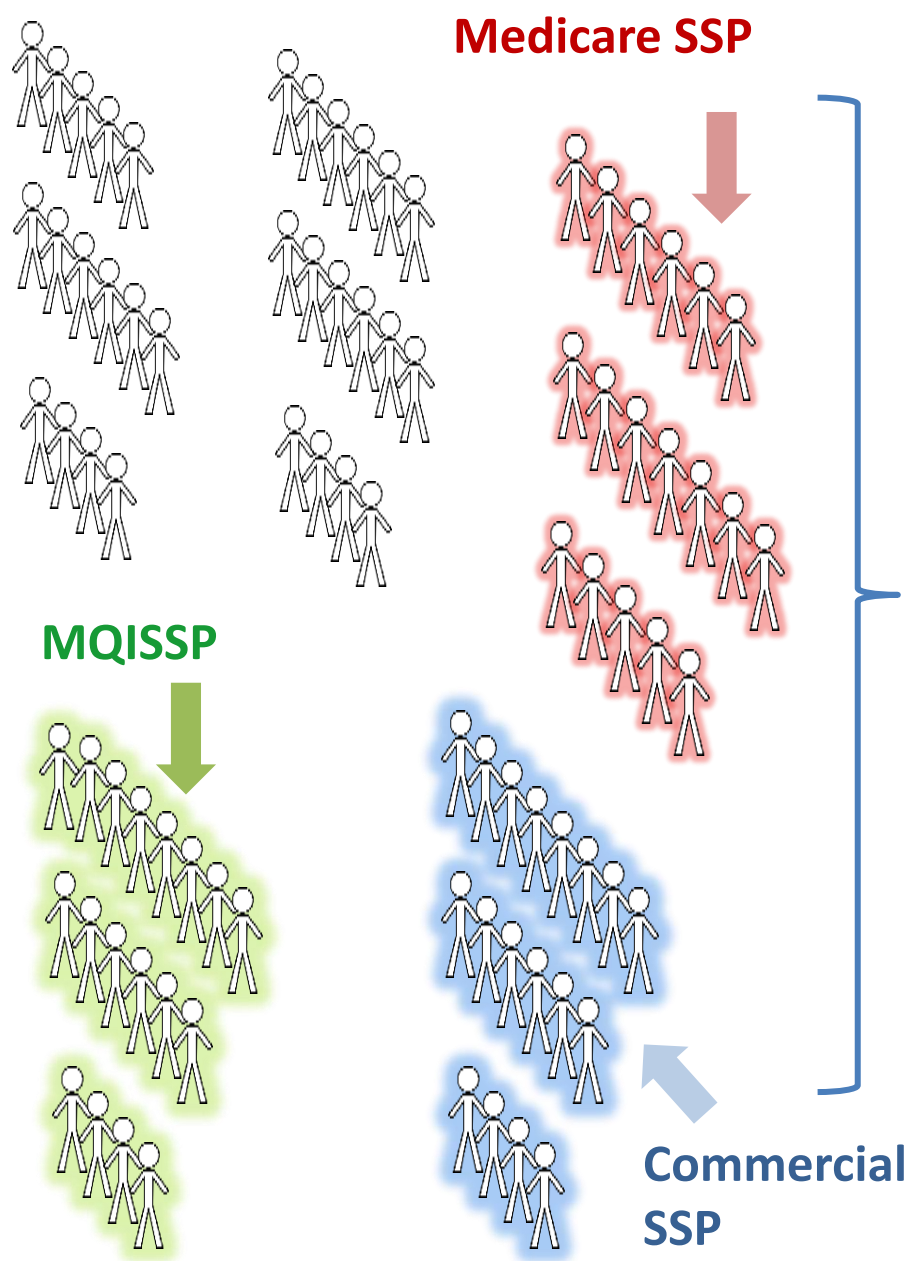

Expanding the reach of Value Based Payment

Expanding the reach of Value-Based Payment

Reaching the tipping point

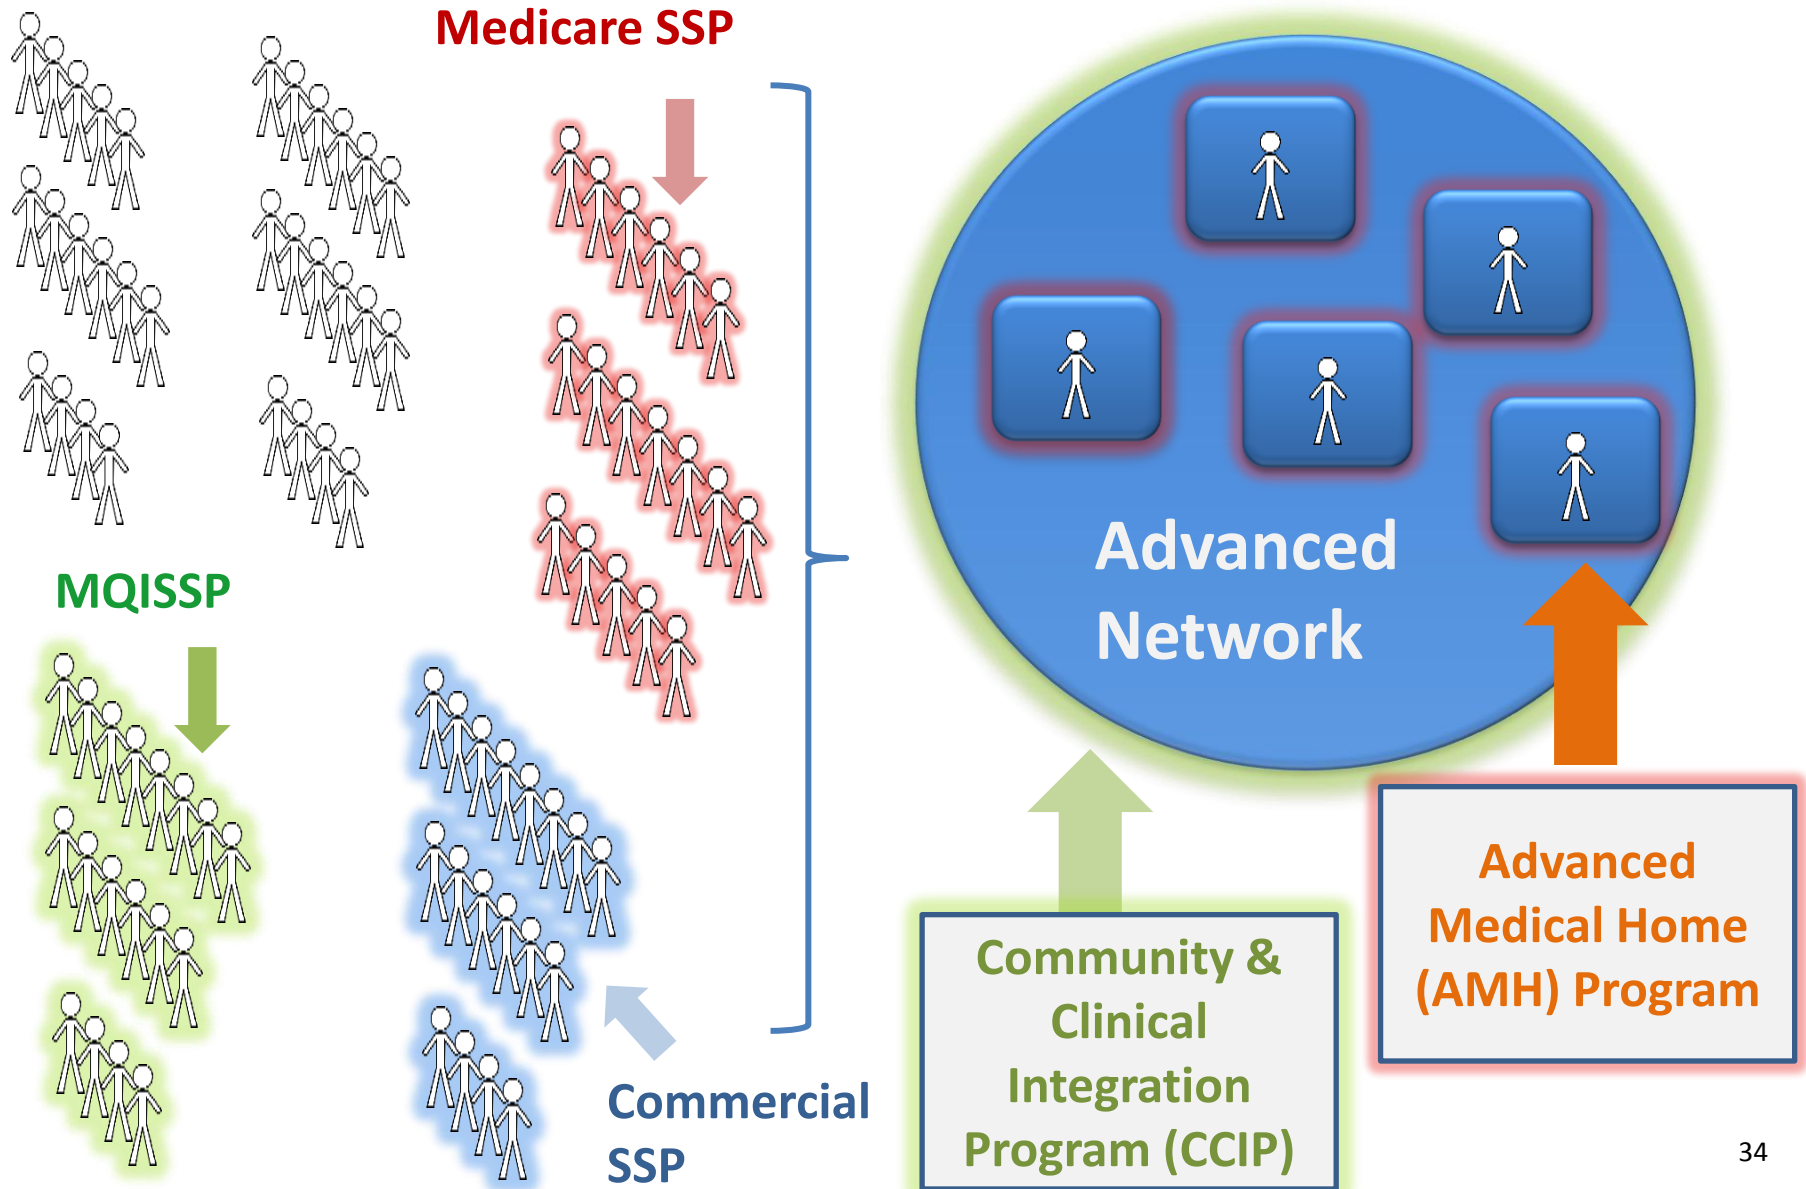

% of consumers in an Advanced Network in value-based payment arrangement

Reaching the tipping point

% of consumers in an Advanced Network
in value-based payment arrangement

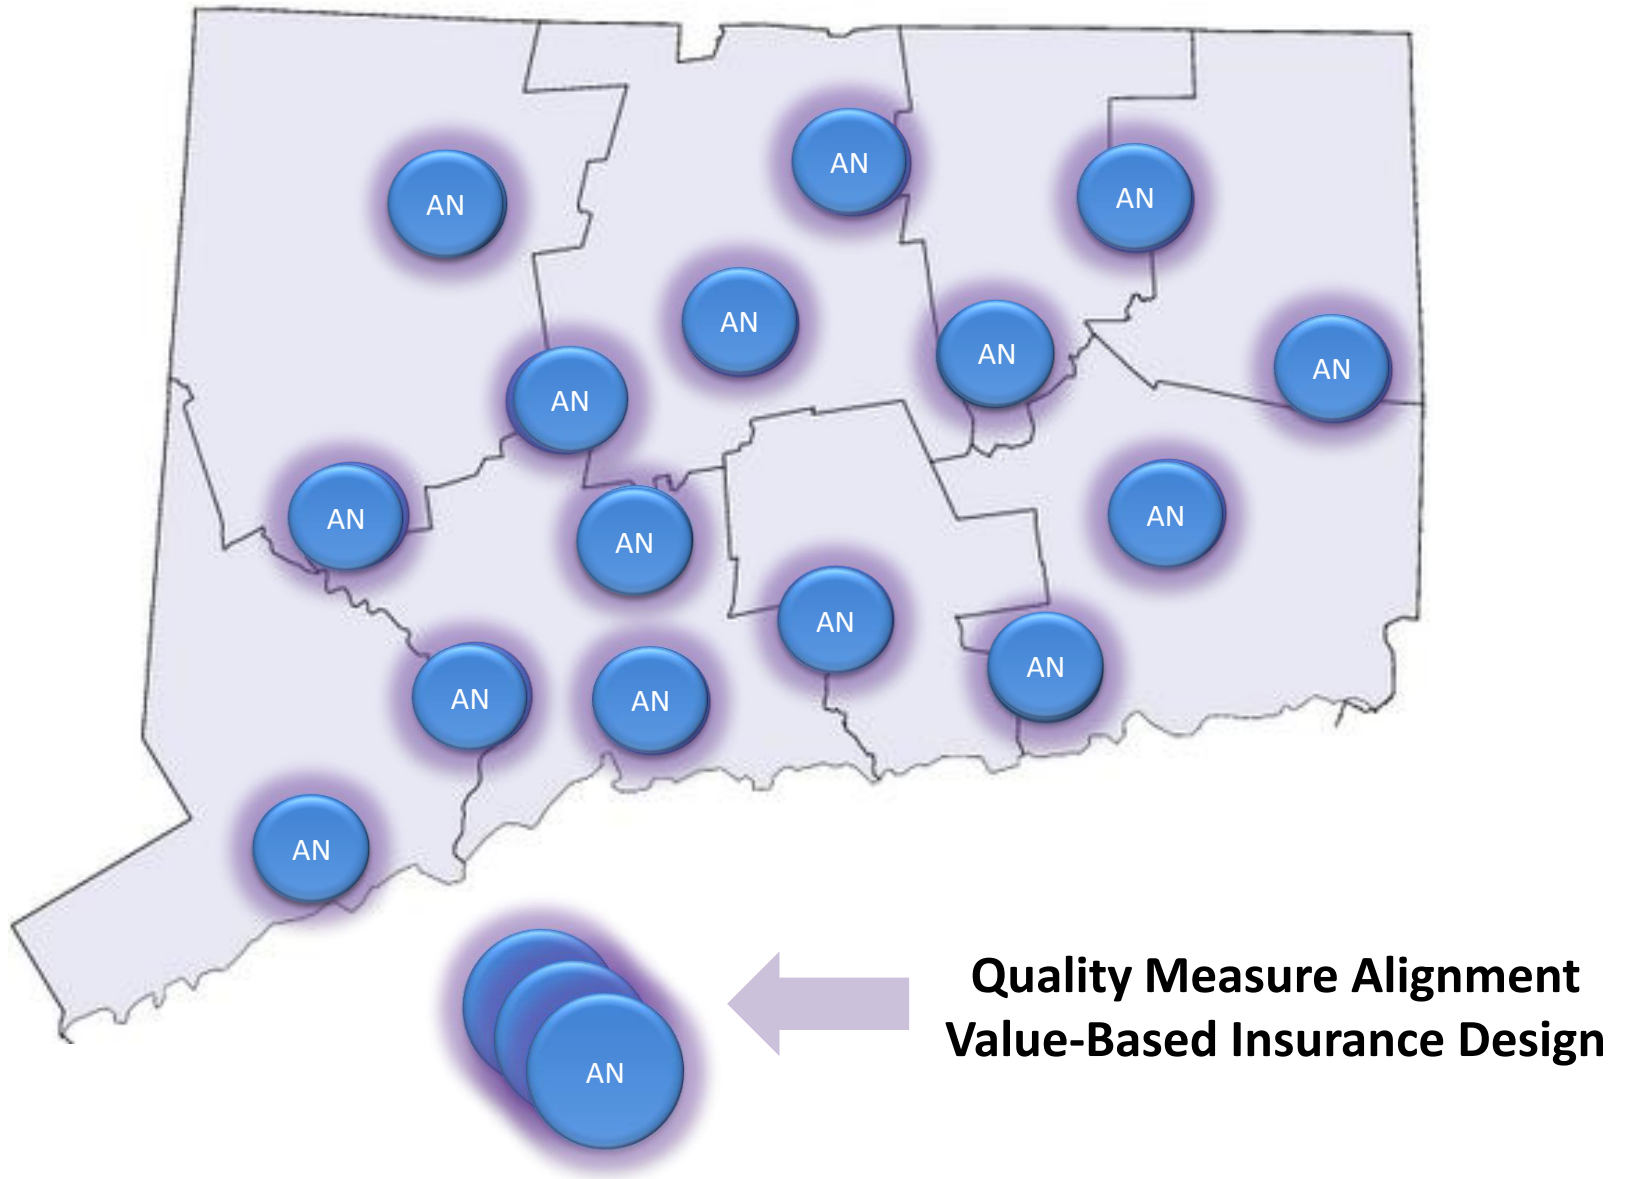

Putting it all together

Targeted Initiatives

Statewide Initiatives

Statewide Initiatives

Quality Measure Alignment

Quality Measure Alignment

Goals outlined in the test grant:

1. Core quality measurement set for primary care, select specialists, and hospitals
2. Common cross-payer measure of care experience tied to value based payment
3. Common provider scorecard

Core Measure Set

Provisional Core Quality Measure Set 10-6-15

Consumer Experience Measure		NQF	ACO
PCMH – CAHPS measure		0005	
Care coordination/patient safety		NQF	ACO
Plan all-cause readmission		1768	
All-cause unplanned admissions for patients with DM			36
Asthma in younger adults admission rate		0283	
Asthma admission rate(child)		0728	
Emergency Department Usage per 1000			
Documentation of current medications in the medical record		0419	39
Annual monitoring for persistent medications (roll-up)		2371	
Adult major depressive disorder (MDD): Coordination of care of patients with specific co-morbid conditions			
Prevention Measure		NQF	ACO
Breast cancer screening		2372	20
Cervical cancer screening		0032	
Chlamydia screening in women		0033	
Colorectal cancer screening		0034	19
Adolescent female immunizations HPV		1959	
Weight assessment and counseling for nutrition and physical activity for children/adolescents		0024	
Preventative care and screening: BMI screening and follow up		0421	16
Developmental screening in the first three years of life		1448	
Well-child visits in the first 15 months of life		1392	
Well-child visits in the third, fourth, fifth and sixth years of life		1516	
Adolescent well-care visits			
Tobacco use screening and cessation intervention		0028	17
Prenatal Care & Postpartum care		1517	
Frequency of Ongoing Prenatal Care (FPC)		1391	
Oral health: Primary Caries Prevention		4419	
Screening for clinical depression and follow-up plan		0418	18
Oral Evaluation, Dental Services (Medicaid only)		2517	
Behavioral health screening (pediatric, Medicaid only, custom measure)			
Acute & Chronic Care Measure		NQF	ACO
Medication management for people with asthma		1799	
Asthma Medication Ratio		1800	
DM: Hemoglobin A1c Poor Control (>9%)		0059	27
DM: HbA1c Screening (interim measure until NQF 0059 is stood up)		0057	
DM: Diabetes eye exam		0055	41
DM: Diabetes foot exam		0056	
DM: Diabetes: medical attention for nephropathy		0062	
HTN: Controlling high blood pressure		0018	28
Use of imaging studies for low back pain		0052	
Avoidance of antibiotic treatment in adults with acute bronchitis		0058	
Appr. treatment for children with upper respiratory infection		0069	
Cardiac strss img: Testing in asymptomatic low risk patients		0672	
Behavioral Health Measure		NQF	ACO
Follow-up care for children prescribed ADHD medication		0108	
Metabolic Monitoring for Children and Adolescents on Antipsychotics (pediatric, Medicaid only, custom measure)			
Depression Remission at 12 Twelve Months		0710	40
Child and Adolescent Major Depressive Disorder (MDD): Suicide Risk Assessment		1365	
Unhealthy Alcohol Use – Screening			

Core Measure Set

Payers currently produce claims based measure
State proposes to produce

- EHR based measures
- Care experience survey measures

SIM Funded HIT

EHR measure
production

Value-based Insurance Design

Value-based Insurance Design

...the use of plan incentives to encourage employee adoption of one or more of the following:

New and innovative approaches

Adopt healthy lifestyles

(e.g. smoking cessation, physical activity)

Use high value services
(e.g., preventative services, certain prescription drugs)

Use high performance providers

Who adhere to evidence-based treatment

➡ **Health promotion & disease management**

➡ **Health coaching & treatment support**

Program Goals

1. Develop prototype VBID plan designs that align the interests of consumers and providers

2. Provide a mechanism for employers to share best practices to accelerate the adoption of VBID plans

Key Partners

**CONNECTICUT BUSINESS
GROUP ON HEALTH**

Promoting a better healthcare delivery system

**Office of the State Comptroller
(state employee health plan)**

SIM VBID Components

- **Employer-led Consortium:** peer-to-peer sharing of best practices
- **Prototype VBID Designs:** using latest evidence, to make it easy for employers to implement
- **Annual Learning Collaborative:** including panel discussions with nationally recognized experts and technical assistance

CT's Health Insurance Market Exchange) will implement VBID in Year 2 of the Model Test (subject to Board approval)

Aligning strategies to engage consumers and providers

***Health Enhancement
Communities 3.0***

Community and clinically integrated

throughout Connecticut

ACO accountability rewards better healthcare...

but it does not reward better health

Health determinants that affect mortality

10% is
healthcare

60% is social, environmental and
behavioral health determinants

- Genetics
- Social Circumstances
- Environmental Conditions
- Behavioral Choices
- Medical Care

Taking aim at the determinants of health requires...

a regional focus

Expand linkages among community stakeholders...

building upon those that already exist

- Relationships among ACOs and all community stakeholders
- Accountability for the health and well-being of all community residents

A pathway to community accountability

Example only: actual regions may be smaller and/or have different boundaries

Accountability for...

- All residents of the community
- Performance
 - improving community health (i.e., prevention outcomes)
 - improving health equity
 - lowering the cost of healthcare and the cost of poor health

Rewards for ACOs that play a role in producing...

measurable improvement in community health

Health Improvement & Quality Performance Scorecard											
					30%	40%	50%	60%	70%	80%	90%
Care Experience											
	PCMH CAHPS										
Care Coordination											
	All-cause Readmissions										
Prevention											
	Breast Cancer Screening										
	Colorectal Cancer Screening										
	Health Equity Gap										
Chronic & Acute Care											
	Diabetes A1C Poor Control										
	Health Equity Gap										
	Hypertension Control										
	Health Equity Gap										
Community Health Improvement											
	Obesity prevalence										
	Health Equity Gap										
	Diabetes Prevalence										
	Health Equity Gap										

Rewards for ACOs that play a role in producing...

measurable improvement in community health

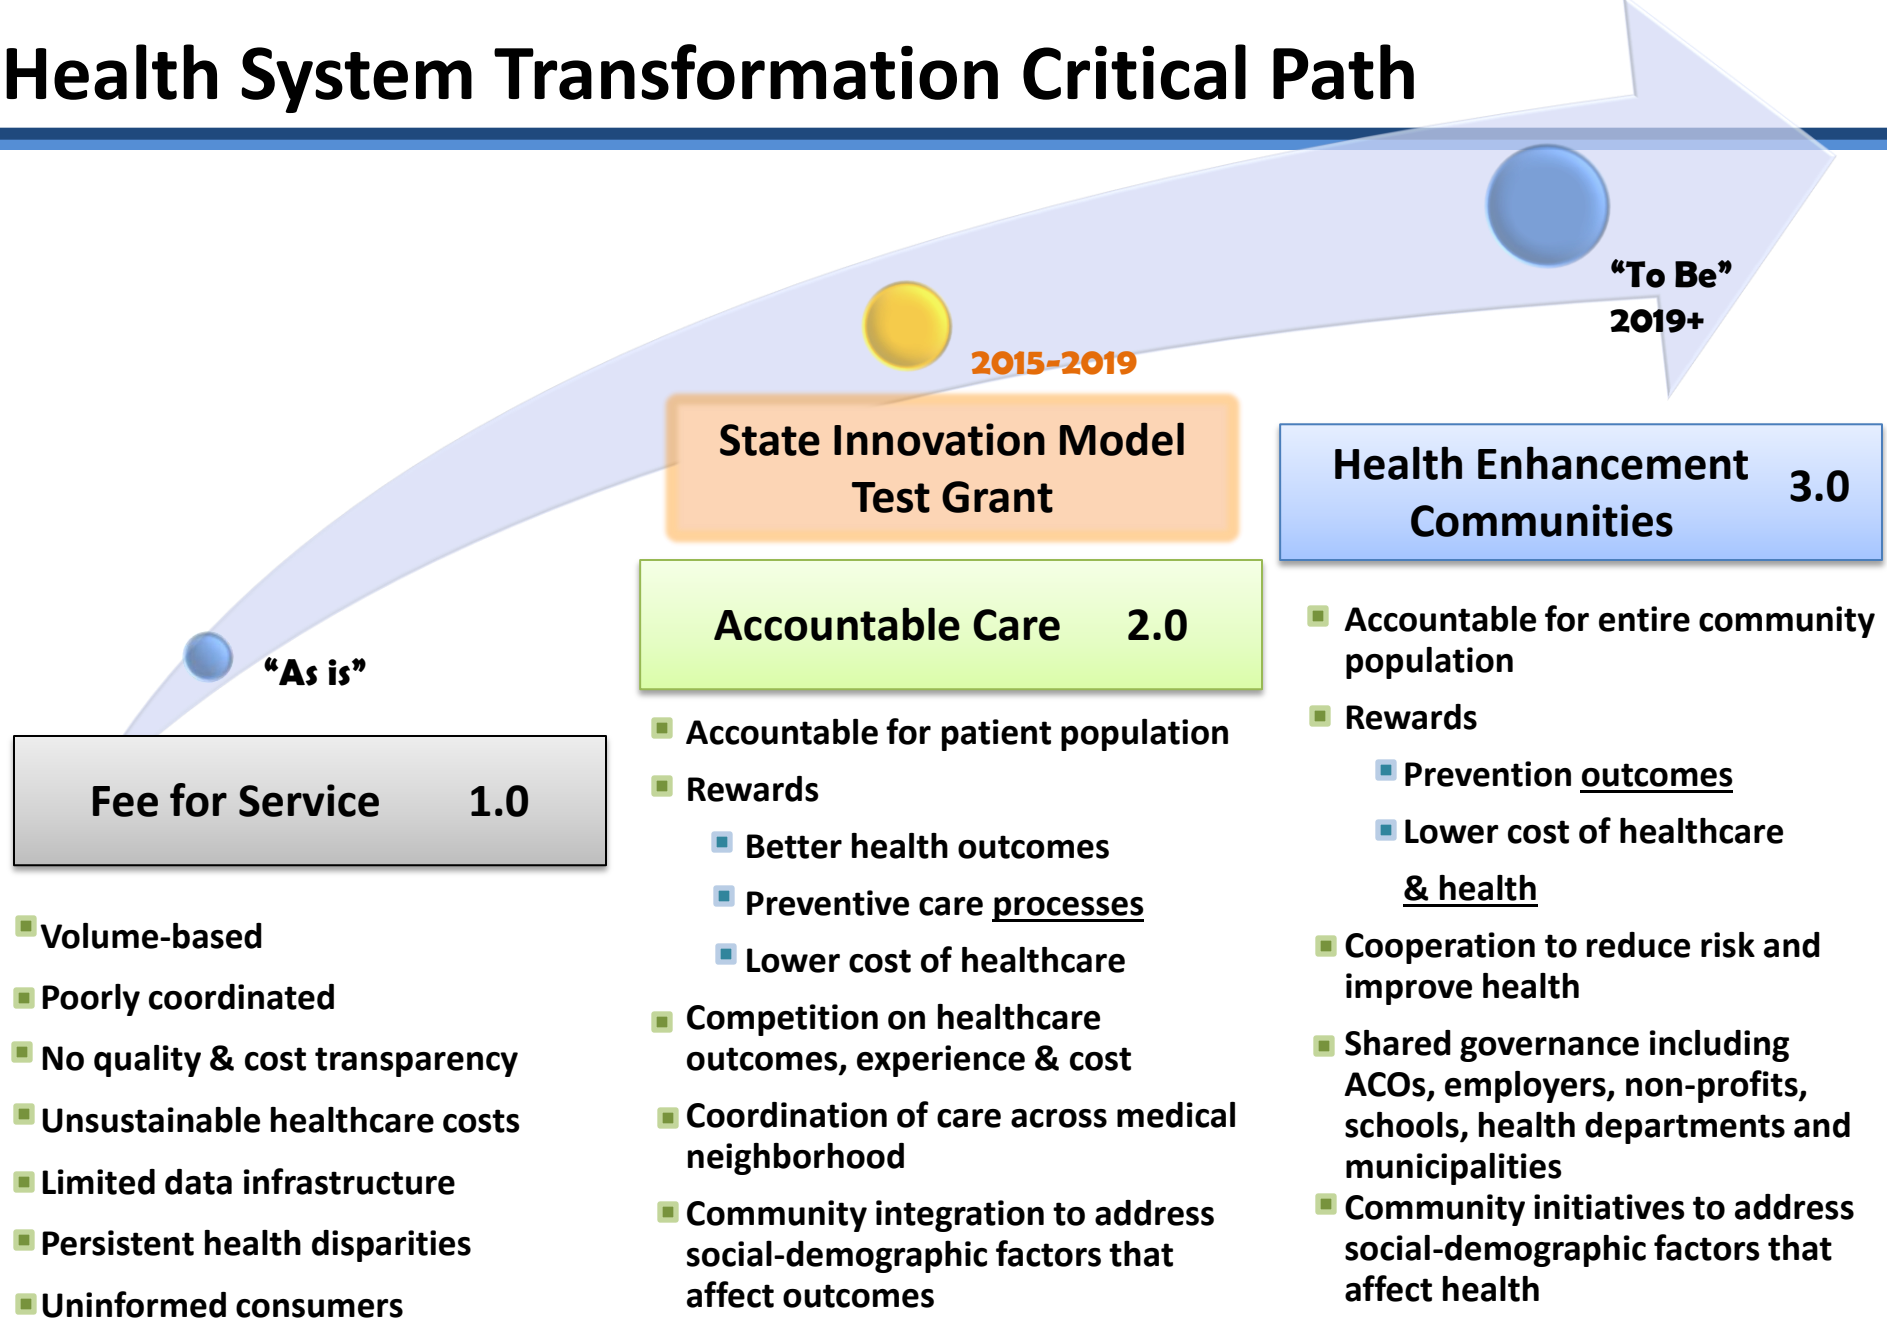

Rewards for community participants...

through new vehicles for reinvestment

- Wellness trust?
- Community stakeholder distributions?
- Consumer incentives?
- Targeted investments...for example
 - Access to healthy food
 - Enhanced walkability
 - Opportunities for an active lifestyle
 - Improvements in housing stock

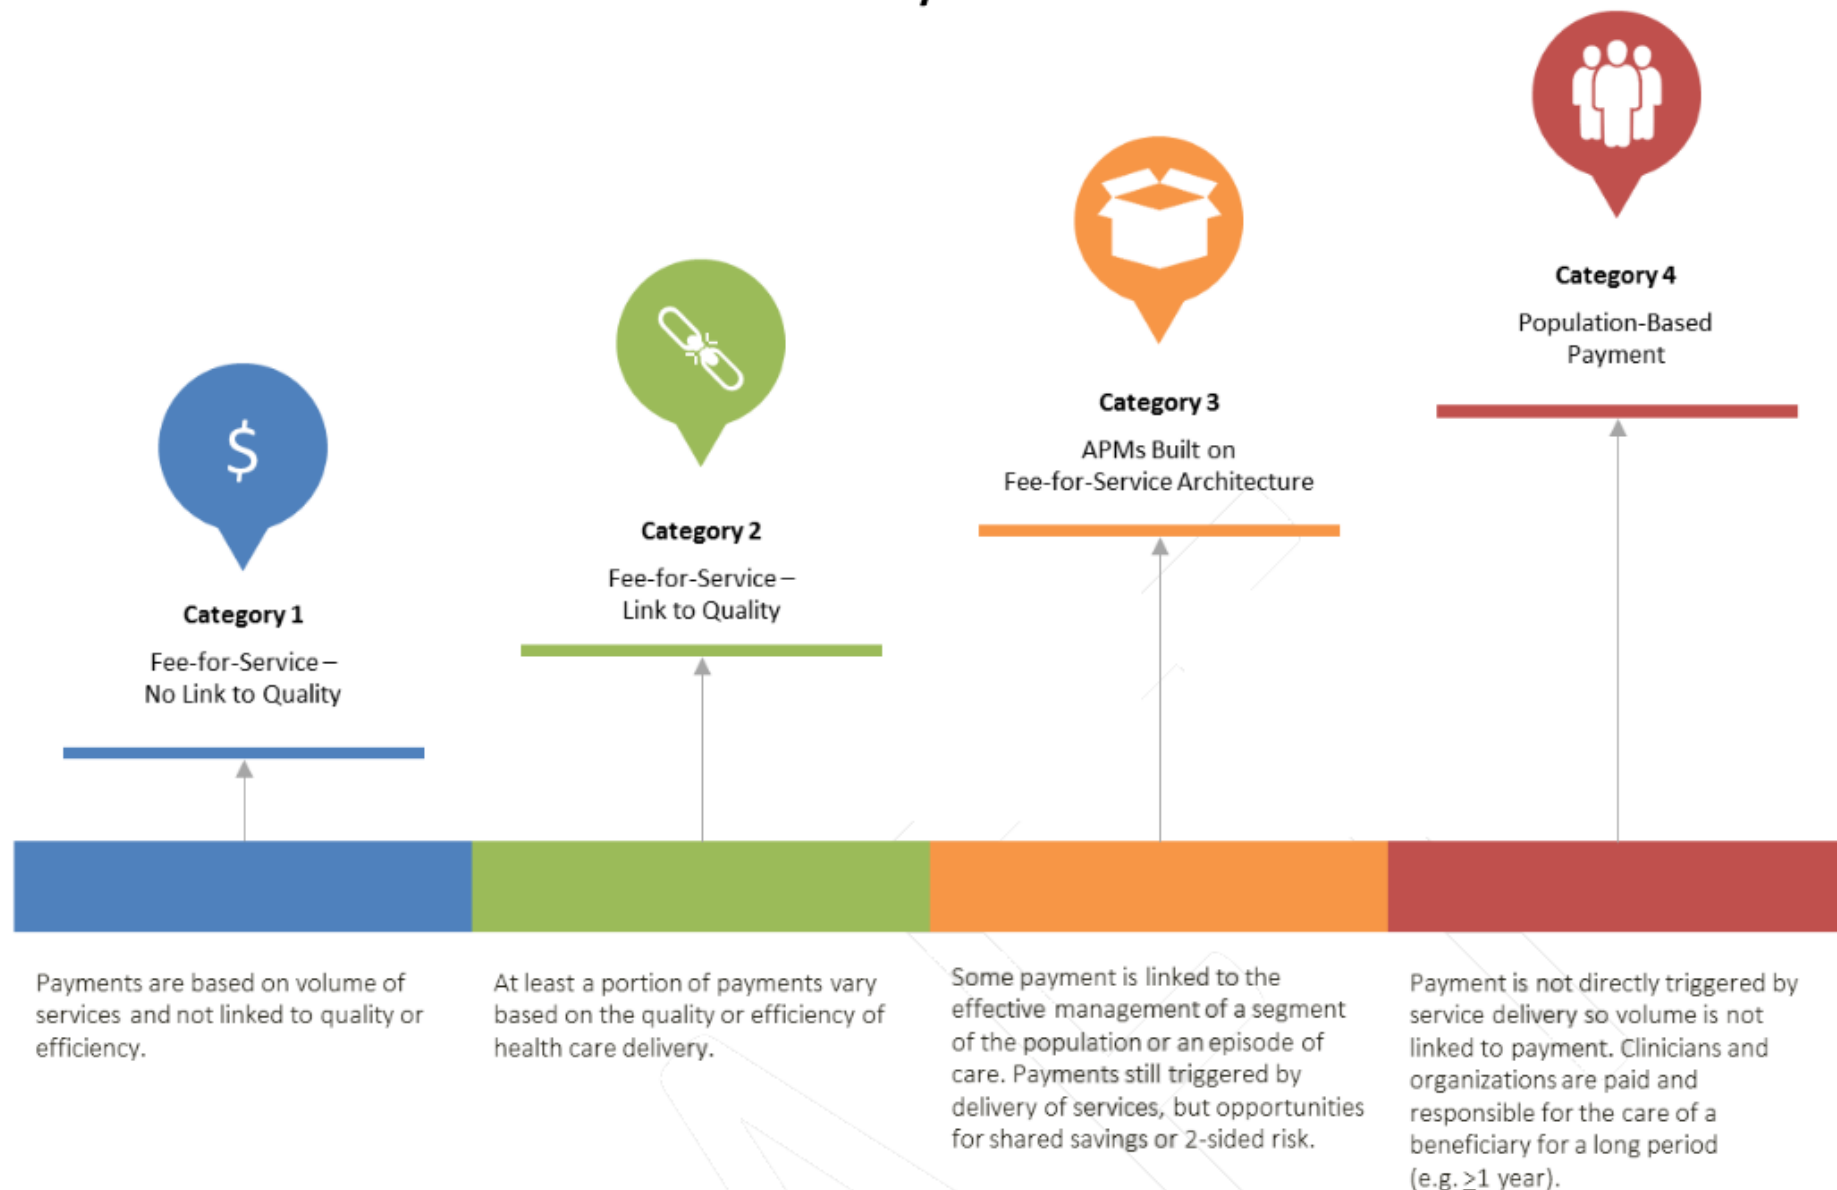

Health System Transformation Critical Path

HCPLAN

What is an Alternative Payment Model (APM)?

CMS Payment Framework

HCP LAN APM Framework

Draft LAN Framework

Category 1 Fee-for-Service – No Link to Quality		Category 2 Fee-for-Service – Link to Quality			Category 3 APMs Built on Fee-for-Service Architecture		Category 4 Population-Based Payment	
Fee-for-Service	A Payments for Infrastructure & Operations	B PayforReporting and Rewards for Performance	C Rewards for Performance	D Rewards and Penalties for Performance	A APMs with Upside Risk	B APMs with Upside/ Downside Risk	A Limited Population- Based Payments	B Comprehensive Population-Based Payments
<div>Traditional FFS</div> <div>DRGs Not linked To Quality</div>	<div>Foundational spending to improve care delivery, such as HIT, telehealth, and care coordination fees</div>	<div>Bonus payments for reporting or quality performance</div> <div>DRGs with rewards for reporting or quality performance</div> <div>FFS with rewards for reporting or quality performance</div>	<div>Bonus payments for quality performance</div> <div>DRGs with rewards for quality performance</div> <div>FFS with rewards for quality performance</div>	<div>Bonus payments and penalties for quality performance</div> <div>DRGs with rewards and penalties for quality performance</div> <div>FFS with rewards and penalties for quality performance</div>	<div>Bundled (e.g., episode-based) payment with upside risk only</div> <div>ACOs with upside risk only</div> <div>PCMHs with upside risk only</div> <div>COEs with upside risk only</div> <div>3N Risk-based payments NOT linked to quality</div>	<div>Bundled (e.g., episode-based) payment with up- and downside risk</div> <div>ACOs with up- and downside risk</div> <div>PCMHs with up- and downside risk</div> <div>COEs with up- and downside risk</div>	<div>Pop.-based payments for specialty, condition, and facility-specific care (e.g., via an ACO, PCMH, or COE)</div> <div>Partial pop.-based payments (e.g., via an ACO, PCMH, or COE)</div> <div>Global budget for hospitals linked to quality</div> <div>4N Capitated payments NOT linked to quality</div>	<div>Full or percent of premium pop.-based payment linked to quality (e.g., via an ACO, PCMH, or COE)</div> <div>Global budget based on population served linked to quality</div>

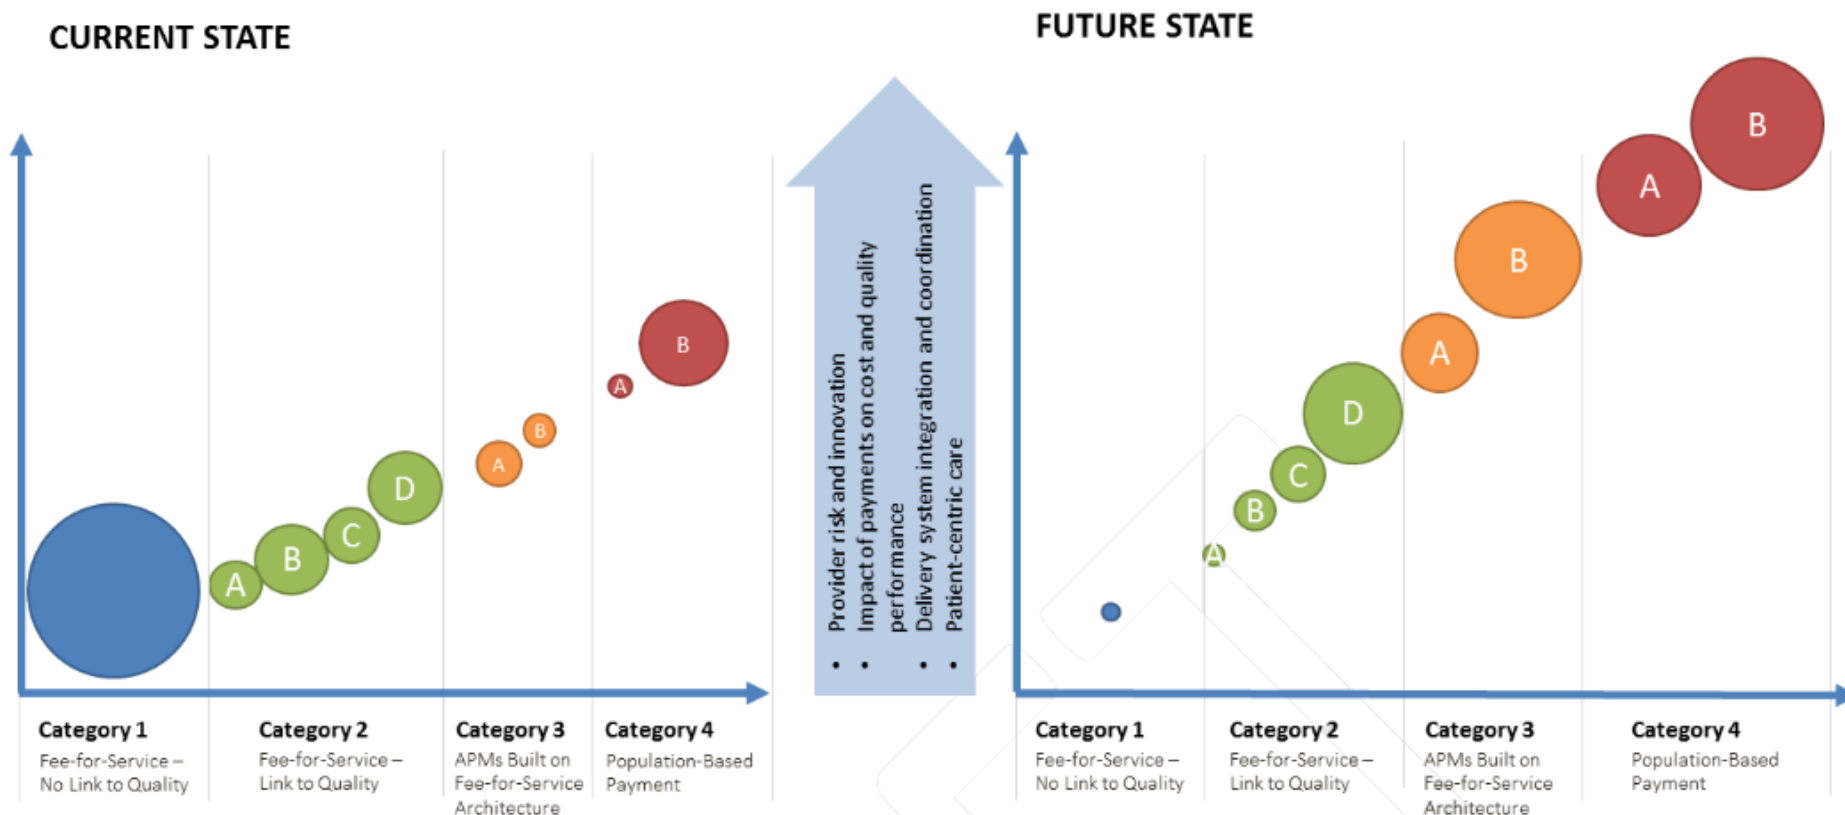

Alternative Payment Framework

CMS has adopted a framework that categorizes payments to providers

	Historical state		Evolving future state	
	Category 1: Fee for Service – No Link to Value	Category 2: Fee for Service – Link to Quality	Category 3: Alternative Payment Models Built on Fee-for-Service Architecture	Category 4: Population-Based Payment
Description	<ul style="list-style-type: none"> Payments are based on volume of services and not linked to quality or efficiency 	<ul style="list-style-type: none"> At least a portion of payments vary based on the quality or efficiency of health care delivery 	<ul style="list-style-type: none"> Some payment is linked to the effective management of a population or an episode of care Payments still triggered by delivery of services, but opportunities for shared savings or 2-sided risk 	<ul style="list-style-type: none"> Payment is not directly triggered by service delivery so volume is not linked to payment Clinicians and organizations are paid and responsible for the care of a beneficiary for a long period (e.g., ≥1 year)
Medicare Fee-for-Service examples	<ul style="list-style-type: none"> Limited in Medicare fee-for-service Majority of Medicare payments now are linked to quality 	<ul style="list-style-type: none"> Hospital value-based purchasing Physician Value Modifier Readmissions / Hospital Acquired Condition Reduction Program 	<ul style="list-style-type: none"> Accountable Care Organizations Medical homes Bundled payments Comprehensive Primary Care initiative Comprehensive ESRD Medicare-Medicaid Financial Alignment Initiative Fee-For-Service Model 	<ul style="list-style-type: none"> Eligible Pioneer Accountable Care Organizations in years 3-5 Maryland hospitals

Future State of APM Adoption

The Work Group's Goals for Health Care Reform

The overarching objective of the LAN is to encourage alignment between and within the public and private sectors as the health care system moves away from traditional fee-for-service payment. The LAN recommends that, over time, public and private health plans should move concertedly towards **APMs in Categories 3 and 4**, to achieve the goals of healthier people, improved care, and reduced cost
